Directors, Senior Management and Employees

Recent Appointments

Effective June 1, 2014, the President of Mexico appointed Mr. Gustavo Hernández García as Director General of Pemex-Exploration and Production. Mr. Hernández García had been serving as Acting Director General of Pemex-Exploration and Production since February 2014.

Amendments to Certain Financing Agreements

On December 20, 2013, amendments to Articles 25, 27 and 28 of the Constitución Política de los Estados Unidos Mexicanos (Political Constitution of the United Mexican States) were published as the
Decreto por el que se reforman y adicionan diversas disposiciones de la Constitución Política de los Estados Unidos Mexicanos, en Materia de Energía (Decree that amends and supplements various provisions of the Mexican Constitution relating to energy matters, which we refer to as the Energy Reform Decree), in the Diario Oficial de la Federación (Official Gazette of the Federation) and took effect on December 21, 2013. The Energy Reform Decree includes artículos transitorios (transitional articles) that set forth the general framework for the secondary legislation or implementing laws that are required to give effect to the Energy Reform Decree (which we refer to as the Secondary Legislation). On April 30, 2014, President Enrique Peña Nieto submitted to the Mexican Congress draft bills proposing Secondary Legislation intended to implement provisions of the Energy Reform Decree. The Secondary Legislation must be approved by both chambers of the Mexican Congress, signed by the President of Mexico and published in the Official Gazette of the Federation in order to become effective.

In order to align certain of our financing agreements with the changes contemplated by the Energy Reform Decree and the proposed Secondary Legislation, we have sought to obtain consents from our bondholders and lenders to amend provisions in these financing agreements that relate to Petróleos Mexicanos’ characterization as a legal entity under Mexican law and to our exclusive authority to participate on behalf of the Mexican government in the oil and gas sector in Mexico, each of which is expected to change in the near future as a result of the Energy Reform Decree. As of the date of this report, we have obtained the requisite number of consents from bondholders to amend the instruments governing approximately U.S. $41.4 billion aggregate principal amount of our outstanding debt securities, and we continue to seek consents from banks and certain other creditors with respect to other financing agreements that contain similar provisions.

For more information regarding the Energy Reform Decree and its potential impact on us, please see “Item 4—Information on the Company—History and Development—Energy Reform” in our Form 20-F.
